REFUELIC SPECIAL.

New Orleans, La., Jan. 11.-Charles H. Hughes pulled off one of the most exten-sive coups of the meeting with Lady Lavish in the first race. Lady Lavish was a malden until she won this race. She is a 3-year-old chestnut filly by Knight of Ellerslie-Squander, and ruced in the colors of H. H. Ziegler, the well-known theatrical

Hughes had his agents planted all over the country, and very little money was bet on the filly at the track. This helped to make a good price against the filly in the peelrooms. Miss Gomez, Ducky and Recharged the peelrooms. Wreath of Ivy were all backed. When it came to running the race Ludy

Lavish made a show of her field, winning as she pleared under the stoutest of wrates. Julia M. beat Lusky for the place. Shortly after the race Hughes sold Lady Lavish to W. H. Rudolph for \$2.00.

On one point he stoke in a manner that will be indersed by followers of racing generally, and that was in strong deprecation of the manner in which cheap selling platers are allowed, in some instances, to run a few bad races, get in a handicap with a feather on their backs.

best of the racing game on the coast. Especial attention seems to be paid to Jake Heitman's present position and Corrigan was noncommittal on this point.

Specking of the offer made to Holtman by the Union Jockey Club of this city. Corrigan stated that Holtman had wired him about the matter, and that he had responded that Jake himself ought to be the best judge of the matter. He added that the heat induce ments to Holtman in spite of the fact that the local track is indiling for his services. Corrigan added that he considered Holtman one of the best starters on the turf to-day.

This fact is commented on by Chicago witers, who seem to have the same ideas shated by St. Lemis specting men on Holtman's case, that he could have made a much better impression by coming out charry and stating his attitude.

In his letter to Capitain Carmody, he spoke most glowingly of the chaine for a track here, expressed his high regard for the management of the course, and then stated that he would start here under certain conditions. These conditions satisfied the local directors and a wire was instantly sent to Jake that his terms were accepted.

Action has been taken on form reversals in handicaps. But the theory of this class of racer is to so bring the horses together that the one which has performed poorly in the past can do better in the race. Club Owner Hedges Trying to Land Player Who Led Three Lengues.

If the Browns can land Frank Hulse man, whom they have been after for ome time, according to well-posted fans, they will have secured one of the best natural batsmen in the profession to-day. may fall through.

His release will also have to be purchased from Shreveport, to whom the National Commission donated him at one of its recent Sessions.

Early last segion, it is alleged, Hulseman took French leave from Shreveport and went to the outlaw league. Later, it is said, he turned another flop, which landed him with Spokane of the Pacific Nationals.

The National Commission took cog-rizance of Hulseman's athletic abilities and sent him back to Vicksburg for the season of 1894

season of 1801.

The company in that burg is entirely too slow for Frank. He is a hitter of note and would probably break all the fences in the Southern Leagne in a month's time. Hedges wants such a man and will probably pay a large price to get him, if Hulseman has not already signed a contract with the Browns. In case Hulseman is secured it will mean that one of the outlielders already signed will more than likely be released. The Browns can hardly use Swander, Hemphill, Heidrick, Hulseman and Burkett in one campaign.

There has been much adverse criticism of the proposed changes in the building ordinance. Many have declared that the changes were such as would be the easiest for the theaters to comply with, and would not greatly enhance the safety of the

NOVEL FIRE TEST

As soon as the Coroner releases his con-trol of the Iroquis Theater the playhouse will be again given over to the flames, if plans evolved by Mayor Harrison and Welter L. Fisher of the City Club are extracted out. Experts who will fight over again the Iroquois conflagration will have trained fire fighters at their elbows to see that the demonstration of the plans does not bring about any property loss outside the partially ruined playhouse. The purpose of again firing the theater is to test the sufficiency of city ordinances, present and prospective.

At a conference to-day between Mayor Harrison and Mr. Fisher this subject was discussed exhaustively, and it was decided that nothing has been done in Chicago for many years which would approach this plan in the amount of good for the public. With men who understand every detail of the test to watch every action of the flames and gases and to regulate effects by the manipulation of the ventilators and doors, it was urged that the benefits to accrue from the first test would be practically inestimable. will be again given over to the flames, if
